No. 477-D

April 2, 1953

You still have sixty days or more of good demand for most grasses and especially all Peas, Millets, Chufas, Lespedeza, Alyce Clover and Sesbania, also Hairy Indigo.

Planting conditions are now very favorable with the rainfall we have received over the Southeast during the last thirty days.

Although many items are strong we still have a fair stock of most varieties including Early and Regular Hegari and Sweet Sudan Grass.

If you want delivered prices on any quantity contact us as we believe we can save you money on this basis.

Prices quoted for full bags. Broken bags slightly higher.
